

NAIL POLISH WALLET GUIDE

Nail polishes might contain 3 toxic chemicals: **Toluene, Formaldehyde, & Dibutyl Phthalate.**

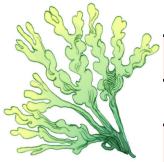

This is a short guide of nail polishes without these 3 chemicals. It is important that you read the bottle label carefully.

Note:

^a Brand might have some series containing the toxic trio

^b Brand replaces the toxic trio with questionable chemicals such as polyethylene terephthalate, diethyl phthalate, or oxybenzone.
